The Chicago Male Quartet

THIS quartet has been prominent for some years in the best musical circles in Chicago, where they are in constant demand. Each member is a soloist of exceptional ability, and their ensemble work is of unusual charm and balance. They are versatile and sing with equal ease the classical as well as the old songs we all love. Most people are especially fond of male quartet music, and this organization will please all classes. They will appear both afternoon and evening of the third day of our Chautauqua.

Their Limit.

He—Look how many wives you hear of who drive their husbands to drink. She—And think of the very few wives you hear of who can drive their husbands to work.

Not Worth Keeping on the Hook.

Ethel—"How many times do you make a young man propose before you say yes?" Muriel—"If you have to make him propose you'd better say yes the first time."—Puck.

On**

A cough that racks and weakens is dangerous; it undermines your health and thrives on neglect. Relieve it at once with Dr. King's New Discovery. This soothing balsam remedy heals the throat, loosens the phlegm, its antiseptic properties kills the germ and the cold is quickly broken up. Children and grown ups alike find Dr. King's New Discovery pleasant to take as well as effective. Have a bottle handy in your medicine chest for gripe, croup and all bronchial affections. At druggists, 50c.—Advertisement.

Dynamite for Mosquitoes.

The residents of a small town in New Jersey were for years pestered by an unusual number of mosquitoes which, upon investigation, were found to be propagating in stagnant pools of water lying between the railroad tracks and the nearest street. It was found that these could not be drained to the street gutters, hence another method had to be employed, and it was decided to sink the water into the ground. A heavy charge of dynamite was sunk and discharged about 20 feet under the surface. This caused the pools of water to disappear in short order, and they disappeared permanently, too!—Garden Magazine.

Good-By, Home Life.

"A primary cause of divorce is the disappearance of home life—the extinction among us of all home sentiment." The speaker was Mary Pickford, the movie actress. She went on: "A man said to me the other day: 'No, I'm rarely home. You'll find me, as a rule, at the Country club. I'd rather play golf than eat.' 'But how about your wife,' said I. 'Does she approve of such sentiments?' 'Sure!' he answered. 'She'd rather play bridge than cook.'—Washington Star.

Such is Life.

"Alas!" she cried, "it is my fate. I might have expected it. All my life things have gone wrong with me. Luck has always been against me. I must have been born under an evil star." "My dear," her friend asked, "what has happened? Why are you so depressed?" "I have practiced 18 months to become able to shed tears at will, and now that I've got it, I can't get a job either in melodrama or the movies."—Judge.

Sign of the Times.

"Is it true that the monarchical form of government is on its last legs?" "Perhaps so. At any rate, you will notice that press agents no longer lay particular stress on the fact that their stars have played before the crowned heads of Europe."

WAR! What Is It All About?

Has the whole world gone mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armor clashing just because Russia wanted to show her love for the little brother, Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great events leading up to the present time; over 50 important and timely special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen, you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an indelible impression.

Making Haste Slow.
The grandparents of little Bampa were recently visiting her and one day her grandfather, whom she called "bampa," happened to be upstairs when the maid called dinner. The grandmother, accompanied by Virginia, went to the foot of the stairs and called grandfather to hurry. Waiting a few moments and not seeing her grandfather appear, she said: "Bampa is slow hurrying, isn't he?"

Hint That Succeeded.
She was inclined to be sentimental. He was nothing if not practical. "Would that you could tell me how to mend a broken heart," she said. "I have known of cases where it has been done by splicing," he replied. "That was the remedy tried in this case."

Short Stories in Abundance.
An industrious reader of short stories has selected 20 as the best by American authors of the 2,700 tales published in 1916 in 70 periodicals. And these 2,700 were probably the pick of 27,000 or more from which the editors had to choose. Many are offered, but few are chosen.

Gorilla Closely Resembles Man.
The gorilla is man's nearest relative on the earth today. He is so much like a man that in all likelihood, according to Doctor Gregory, he would in the course of ages develop into a very human sort of creature, if his species were permitted to survive. Unfortunately, he will not enjoy the opportunity, because his race is being rapidly exterminated.

Waste No Food

Food Waste of About 700 Million Dollars.

"For partial immediate relief, every individual and community should consider earnestly the matter of food conservation and the limitation of waste. As a Nation we seem to have a disinclination to economizing. In many homes there is a strong feeling that it is 'only decent' to provide more than will be eaten and that it is demeaning to reckon closely. The experts of the Department of Agriculture report to me that the dietary studies made by them point to an annual food waste of about \$700,000,000. Of course, the waste in families of very limited means is slight, but in the families of moderate and ample means the waste is considerable. Even if the estimate were reduced by half, the waste would still be enormous.

"The food waste in the household, the experts assert, results in large measure from bad preparation and bad cooking, from improper care and handling, and, in well-to-do families, from serving an undue number of courses and an over-abundant supply and failing to save and utilize the food not consumed. As an instance of improper handling, it is discovered that in the preparation of potatoes 20 per cent of the edible portion in many cases is discarded."—SECRETARY OF AGRICULTURE, March 3, 1917.

Food is Wasted

(a) When we eat more food than our bodies need for growth and repair and to supply energy for our work. Overeating tends to poor health and fat instead of brawn, makes us sluggish and indolent instead of energetic and resourceful. Eat enough and no more. Eat for physical and mental efficiency.

(b) When food is burned or spoiled in cooking. Improperly prepared or poorly seasoned food will be left on the table and probably wasted. Buy food wisely and then prepare it carefully.

(c) When too much food is prepared for a meal. Unserved portions are apt to be thrown into the garbage pail or allowed to spoil. Many housekeepers do not

know how to use left-over foods to make appetizing dishes.

(d) When too much food is served at a meal. Uneaten portions are left on the plate and later thrown into the garbage pail. Learn to know the needs of your family, and serve each no more than you think he will want.

(e) When anything edible is allowed to go to the garbage pail or allowed to spoil for lack of proper handling.

(f) When food is handled carelessly. Buy clean food, keep it clean until used, be neat in all details of cooking and serving. This lessens waste and is a valuable health measure as well.

Feed Your Own Family First

Don't feed high-priced human food to hogs or chickens.
Don't send valuable food to the incinerator or the fertilizer heap.
Don't pour into the sewer nourishing food in the shape of milk, skim milk, sweet or sour soup, gravy, or melted fat, or water in which cereals or vegetables have been cooked.
Keep good food out of your garbage pail and kitchen sink.
